Prepare for the official homeowner intake

Confirm current service area, household income rules and intake availability with RTP.

Gather proof of ownership, household income and residence for the official intake.

Review owner occupancy, other property ownership and plans to remain in the home.

List requested repairs and questions. Reported facts still require RTP verification.

Provide sensitive supporting documents only through the official requested process.

Do not upload tax, bank or identity documents to this fictional beta.

The app does not establish eligibility, approval, consent or a repair commitment.

Official application (open separately; confirm it remains current):
